

Smart Home Alarms

Yale Smart Home Alarm Kits give you control of your alarm system from your Smartphone. These kits can be extended to include additional accessories including a Power Switch to turn home appliances on and off remotely (i.e. a lamp or radio), a PIR Image Camera to view images of inside your home, and you can even add a Yale Smart Lock to your front door controlling them all from your Yale Smart Home Alarm App.

Control via Smartphone.

View Images of you home and arm/disarm your alarm anytime, anywhere via your Smartphone.

868MHz Technology.

Yale uses a frequency that is tightly controlled, meaning a clearer channel with less interference.

Pre-Linked.

Yale Smart Home Alarms come with components already linked to the Smart Hub. This makes installing your alarm quick and easy.

Part Arming.

Set the alarm and secure downstairs while you move freely upstairs.

Easy to Fit.

There is no need to damage your décor, lift carpets or run cables. All components are self-contained and no wired connections are required between units.

Expandable.

Add up to 20 devices to tailor the system to your home. (Up to 6 out of 20 can be PIR Image/Video Cameras)

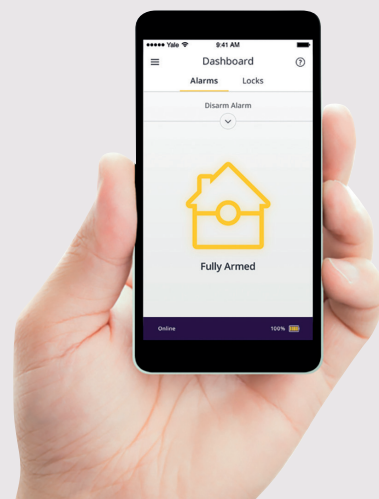

No Monthly Fee.

Putting you in control and alerting you directly means there are no monthly fees.
