

The smartest, most powerful robot vacuum yet—Wi-Fi enabled.

neatoKNOWS
Cleaning on the go.

Clean anytime, anywhere with the Neato app—start, stop, pause, schedule, and receive notifications wherever you are.

LaserSmart technology.

Uses laser technology and real-time object detection to continuously scan and map each room, identifying furniture, doorways, and stairs. It then methodically cleans, moving from room to room in the most efficient way—instead of just bumping around.

SpinFlow Power Clean system.

Versatile brush system, extra large dirt bin, and ultra performance filter captures up to twice the particles as competitors. Easy to pop out and clean filter—new filter screen keeps dirt where it belongs.

ULTRA PERFORMANCE FILTER

Eco & Turbo modes.

Eco mode offers a longer, quieter energy-saving clean. Turbo provides a super-powered cleaning—with maximum pickup.

D-Shape with CornerClever technology.

Neato's D-shape allows for a front-brush design with a 50% larger brush (compared to many round robots) that gets closer to the walls and into corners—and makes room for Neato's extra-large dirt bin.

Cleans on a schedule.

Easily schedule the robot to clean every day—or on a schedule that works for you.

High capacity Li-Ion battery.

Delivers more charge cycles and longer cleaning runs.

Auto Charge & Resume.

Cleans more floor than other robots. If it needs more power, it automatically returns to the charge base, charges up, then goes back to finish the job.

Remote Control from the Neato app.

Direct the robot's vacuuming path right from the Neato app to clean wherever you choose.

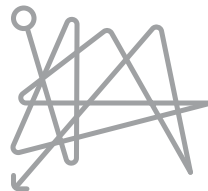

Clean your floors anytime, anywhere from your smartphone.

Industry experts like CNET agree. Neato is best at picking up pet hair.

Other Robots

Other robots randomly bounce around the room.

Neato Robots

Neato scans and systematically cleans.

Specifications

Robot Dimensions:

33.5 cm w x 32.1 cm l x 10 cm h
13.2" w x 12.7" l x 3.9" h

Package Dimensions:

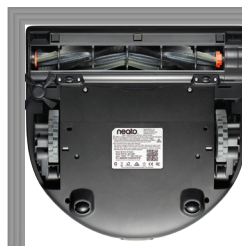

39.8 cm w x 56.3 cm l x 13.9 cm h
15.7" w x 22.2" l x 5.5" h

Package Weight: 7 kg. /9 lbs.

Package Contents

Wi-Fi Enabled Robot Vacuum
Integrated Charge Base & Power Cord
High Capacity Li-Ion Battery
Spiral Blade Brush (Best all-around brush)
Combo Brush (Best for hair on carpeted floors)
Side Brush
Ultra Performance Filter
Boundary Markers
Brush & Filter Cleaning Tool
Quick Start Guide

D-shape cleans closer to walls and into corners.

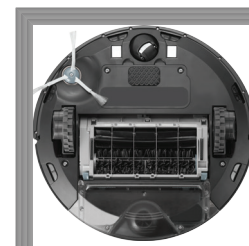

Neato Robot Vacuum

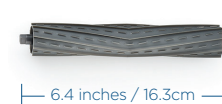

Neato cleans within 14mm of walls and corners.

Neato's D-shape allows for a front-brush design with a 50% bigger brush than the competition. Gets closer to walls and into corners—and makes room for Neato's extra-large dirt bin.

Other Robot Vacuum

Round robots are 98mm away from the walls—and even further from corners.

Round vacs have their brushes in the middle, between the wheels. Not much room for a decent size brush. And the dirt bin? It's small, too.
