The initial camera registration can only be performed using the mobile app.
You can also access all functions at www.samsungsmartcam.com, including camera settings, live monitoring and playing back recorded videos.

Create User Account

Please follow these easy steps to create a user account, before setting up your camera.

1. Go to the App Store from your iPhone or iPad.
2. Search for "Samsung SmartCam" and install the app.
3. Open the app.
4. Tap "Create new account".

5. Tap "Start".
6. Enter user ID, password, name and e-mail. Tap "Register".
7. Tap "Next" to register your camera.

Record Your SmartCam User Account Information Here:

USER ID: _____
A combination of 8-14 alphanumeric letters
Example: johnsmith or johnsmith12

USER PASSWORD: _____
A combination of 10-14 alphanumeric letters
Example: smartcam123

iOS Wireless Camera Setup

Continue with camera setup by following the app wizard instructions.

1. Tap "Wireless Setup".
2. Connect the power and follow the on-screen instructions to set up Wi-Fi connection. When done, click "Next".
3. Exit SmartCam app by pressing the home button.
4. Go to the "Settings" on your iPhone/iPad, and tap "Wi-Fi".
5. Turn on your Wi-Fi, and pick the network ending in the last 4 characters of your camera's serial number. If a password is required, enter "smartcam". Once connected, exit "Settings" and return to the SmartCam app.
6. In the SmartCam app, select your home Wi-Fi network.
7. Enter your home Wi-Fi network password and tap "Connect".
8. When the LED light turns green on the camera, you will automatically be directed to Step 9.
9. Create a name and password for your camera. (Name: 1-20 letters and numbers. Password: 1-8 letters and numbers)
10. To setup your Wi-Fi, select "Yes".
11. Select your Time Zone and then tap "Next".
12. Enable motion and/or audio detection to receive event alerts on your devices.

CONGRATULATIONS!
You have successfully completed the SmartCam setup!
